

ARSHAD AAFAQ D

Data Scientist at Tesco

Microsoft Certified Azure AI Engineer with 3.5 years of expertise in Machine Learning, AI, Python, SQL, Excel, Power BI, Tableau, and Mix panel Studio. Seeking opportunities to apply and enhance my Data Science, statistics, and machine learning skills to drive business growth and innovation.

WORK EXPERIENCE

Data Scientist

Tesco

 Jan 2024 – Present

 Bengaluru

- **Sentiment Analysis for Customer Reviews**
Designed and implemented a sentiment analysis model to analyze customer feedback using LLama. Extracted insights to classify reviews as positive, neutral, or negative, achieving an accuracy of 93%. Insights from this project helped the business identify key customer pain points and improve product satisfaction by 15%.
- **AI-Driven Customer Segmentation for Coupon Distribution**
Leveraged AI techniques to develop a predictive model that identified customers likely to increase spending with targeted coupon distribution. This project optimized marketing efforts, increasing coupon redemption rates by 20% and boosting sales by 12%.
- **Developed CXO-Focused Analytics Platform**
Launched Cockpit 2.0 to deliver high-level insights for CXOs in Central Europe, reducing insight-generation time by 83%.

Data Scientist

FOUNDIT

 May 2022 – Dec 2023

 Bengaluru

- Collaborated on a Salary Prediction ML Project, forecasting salaries using internal and Ambition Box data.
- Implemented Azure ETL pipelines, reducing data processing time by 40% and improving data quality by 25%.
- Developed Power BI dashboards and utilized Python (Pandas, NumPy, Matplotlib, scikit-learn) for data manipulation, boosting revenue by 15%.

Junior Associate

KSSPL

 Dec 2020 – Oct 2021

- Automated data collection using Python and SQL, reducing data gathering time by 30%.
- Developed Power BI reports and automated data pipelines, reducing manual effort by 20%.

PROJECTS

Salary Prediction Project

Foundit Project

- Built a robust salary prediction model with 90% accuracy using random forests, achieving 86% adjusted R².
- Employed techniques like linear regression, Ridge & Lasso regression, and Decision Trees.

COVID-19 Tweets Sentiment Analysis

AlmaBetter Verified Project

- Developed an ML model with 92% accuracy using Logistic Regression for sentiment analysis on COVID-19 tweets.
- Applied NLP techniques, including text cleaning, tokenization, and stemming, generating actionable insights.

SKILLS

- **Languages**
Python, SQL, Machine Learning
- **AI & ML Frameworks**
TensorFlow, PyTorch, Keras, Langchain, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- **AI Specializations**
Natural Language Processing (NLP), Neural Networks, Deep Learning, Computer Vision, Generative AI, Transformer Models (e.g., BERT, GPT)
- **Platform & Tools**
Power BI, Excel, Tableau, MySQL, Streamlit, FastAPI, Hadoop
- **AI & ML Algorithms**
Linear Regression, Logistic Regression, Random Forest, NLP, Decision Tree, Ensemble Technique (Bagging and Boosting), SVM, Text mining, Time Series

RELEVANT COURSEWORK

AI & Data Science Trainee

ALMA BETTER - IIT Guwahati

- Completed full-stack AI & Data Science training with hands-on experience in Python, SQL, Machine Learning, and Deep Learning techniques.

EDUCATION

Masters of Computer Applications

UNIVERSITY OF MADRAS

- Percentage: 81%

Bachelors of Computer Science

THIRUVALLUVAR UNIVERSITY

PUBLICATIONS

Blog Posts

- **Fascinating World of Natural Language Processing (NLP)**

ACHIEVEMENTS

- Gold Badge in Python and SQL on HackerRank (Python: 443 points, SQL: 650 points).
- Awarded First prize in a Quiz & Spell bee competition.
- Organized a State Level Technical Symposium Dreamit i'20 & Led a Team Of 50 Members.
- Awarded First Prize in a Quiz competition in the Monster India Quiz Competition.
